Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 30 is rejected under 35 U.S.C. 102(b) as being anticipate by Herbert et al.

Herbert et al discloses (Figure 5; column 5, lines 1-11; column 10, lines 1-12) a colorant set including Cyan, Magenta, Yellow, Black, and Violet (purple). Violet has a hue angle intermediate between Cyan and Magenta.

Allowable Subject Matter

3. Claims 1-9, 11-13, 15-29, & 31 are allowed.

4. The following is a statement of reasons for the indication of allowable subject matter:

Re claims 2-3 & 15-16, (and dependent claims 4-9, 11-13, & 17-26) the art of record teaches the assignment of one-third (rather than one-half) of the non-black colors to each of the screen angles.

Art Unit: 2624

Sets of colors are assigned three different screen angles in complementary color pairs, thereby assigning half of them to each screen in such a way that colors of adjacent screen angles (which are not complementary colors) are assigned to different screen angles. This insures that the two colors assigned to each screen angle are never in use simultaneously. This teaching contraindicates a modification to assign half of the colors to one screen angle, as such a modification would place at least two colors that could be used simultaneously on the same screen angle.

Re claims 27-31, the art of record discloses colors within the CMYK gamut as a colorant between cyan and magenta.
